

# Arlington High School Building Project

AHS Construction Update – 9/24/20

## Arlington HS Construction Schedule: April 2020 – April 2025

### Construction Details

Phase 1 site-work and temporary phasing is nearing completion. Foundations are now underway for the new Phase 1 Building. Work areas during this phase include the front green, the Peirce practice field and the current softball field.

Construction work hours will be Monday through Friday will and follow local bylaws (8 AM – 6 PM). Saturday work may be required to maintain the schedule. Material deliveries and other work will be coordinated around the school and traffic schedules to create as little disruption as possible.

### COVID-19 Update

The health and safety of the community and workers on-site are of the highest priority and were taken into consideration in all project-related decisions. Per Governor Baker's announcement, construction work is deemed 'essential' and can continue. For the school to be completed on time, it is very important to maintain the original construction timeline as closely as possible. The construction team will also be maximizing the schedule as students are off-site during this time. The Town of Arlington continues to monitor all state and federal guidelines regarding best practices during this unusual time and will modify recommendations as necessary to maintain safety and health for our community and construction workers.
